Subject: Categorization Process Documents for Conference Call

Hello everyone,

Please find enclosed the Categorization Process Document, Categorization Process Form and the WSA Scientific Areas List. These will all be discussed on the conference call scheduled for Friday, October 15 at 8:00 am (EDST).

All forms are due back to me by noon, October 27. The meeting to discuss these forms will take place on November 1-2.

Also, the WSA Scientific Areas List will be further updated to reflect additions of reviewers where there is highlighting. These are areas which still need to be covered in the Categorization Process.

Unfortunately I will be unable to join the Conference Call due to a previous commitment, but will be communicating to Rick and his staff to fill in any gaps which may occur. Please contact me directly if you feel your name should be filled in for any particular area.

I hope everything goes well and will be working with everyone if any questions arise.

Thank you.

-L

P. S. Please note that these forms have been saved in both '95 and '97 formats. If for any reason you get a message when filling out the Categorization Form asking for a password, you should hit "Cancel."
